ENLERS

PLAN TO IMPEACH BALLINGER

WASHINGTON, Dec. 2.—A resolution asking for the impeachment of the Secretary of the Interior, Richard A. Ballinger, will be presented in the House by a Democrat early in the coming session of Congress, according to reports which have come to the ears of Republicans. No Democrats who could be reached, however, would or could confirm the report.

It is known that the Democrats who are on the congressional committee which spent last winter and spring in investigating the charges against Secretary Ballinger growing out of the Ballinger-Pinchot trouble think that some of the charges were sustained and favor a vote of censure for the head of the Interior Department. It has been understood, also, that the filing of the minority report of the committee in Congress would be followed by the presentation of a resolution of censure, which many Democrats would support.

The Democrats on the committee of investigation are expected to hold a conference tomorrow afternoon, and it is believed their future course will then be determined. Their views became public at the time of the committee's meeting in Minneapolis last September.

Together with the insurgent members of the committee they were in the majority at those sessions. Their attempts to have their report adopted as the report of the committee and the withdrawal of Republican members to break a quorum are well known.

The Republican members of the committee, who form its majority outside of the insurgents, held a meeting in the office of Senator Nelson, the chairman, yesterday afternoon, and held another today. The report which they will favor was generally discussed. It is known on excellent authority that their report will be favorable to Secretary Ballinger.

But the Republicans are alarmed over the report that a resolution of impeachment is to be introduced by a Democrat in the House. One of them pointed out this morning that the Democrats and insurgents of the House have demonstrated their ability to control it, and that, inasmuch as the Democratic and insurgent reports of members of the investigating committee will be unfavorable to the Secretary of the Interior, there is a possibility that a resolution of impeachment might pass the House.

The report of the majority of the committee will, it is understood, declare that the Secretary was guilty of no improper acts in his administration of the Cunningham coal claims. But, inasmuch as the insurgent and Democratic members of the committee do not agree with that finding, the majority report may be overturned in the House and a minority report unfavorable to the Secretary adopted.

DRINKING SHORTENS LIFE.

WASHINGTON, December 10.—Under instructions from President Morton of the Equitable Life Assurance Society, Robert Henderson, acting actuary of the company, today addressed the annual conference of the National Inter-church Temperance Federation in this city on the life-destroying tendency of intoxicants as revealed by the company's mortality statements. "All conditions being equal, the use of intoxicants reduces a man's expectancy in life," said Mr. Henderson. "Life insurance experts agree generally that the teetotaler is a first-class subject for life insurance."

WARSHIP COMING UP MISSISSIPPI

WASHINGTON, December 10.—After the April maneuvers off Guantanamo, one of the battleships of the Atlantic fleet will probably be sent up the Mississippi river on a friendly visit to the cities along that stream. Secretary Meyer thinks that such a visit would be a good thing.

Strange as it may seem the men now controlling the policy of the department are not worried by any question as to the depth of water at the mouth of the river. Those in control two years ago professed to be. The only question in connection with the matter is as to whether the diplomatic sky will be clear enough at that time of the year to permit the detachment of one of the fighting craft from the unit patrolling the Atlantic.

The up-stream cruise of the Mississippi two years ago did the navy an immense amount of good. Enlistments for that part of the country showed a marked increase. The navy is always in need of enlisted men and sometimes of officers. Therefore anything contributing, even to moving picture shows, is deemed legitimate.

So royally treated were the men and officers of the Mississippi when she went to Natchez that an order to ascend the big stream is looked upon as in the nature of an order to take a pleasant vacation.

It is true the cruises of that kind are apt to be hard on the digestive apparatus, but the government had a good many young doctors to keep its fighting men in fighting trim, so that a little heavy feeding after the spring maneuvering is not regarded as amiss.

It is almost a certainty that if a ship is sent it will be one of the Mississippi class of 13,000 tons displacement and 375 feet of length. The Mississippi and Idaho of that class, are comparatively short, while the ships of the Louisiana class, of very little greater displacement, are seventy-five

feet longer. The Louisiana is of two inches less normal draft than the Mississippi, so it is length rather than draft that governs in such a matter. Greater length, it is feared, might make turning at the upper end of the cruise just a little more perilous than absolutely necessary, although it is a certainty that any of the old pilots could take the longest ship in the navy and turn her in the river at or near Natchez.

EXPRESS SAFE CONTAINING \$15,000 MYSTERIOUSLY STOLEN.

MINNEAPOLIS, December 8.—Mystery surrounds the disappearance of a small safe said to have contained \$15,000 and valuable merchandise from the office of the Adams Express Company, 256 Hennepin avenue, early today. The safe was delivered at the office last night by one of the company's drivers. Some time after midnight it disappeared. The police were notified, but so far have been usual and unexpected as they were away.
